2	Create Ukulele tab sheets	3

Chapter 1

About

Tabcreator can do 2 things:

1. Create our own Ukulele tab sheets
2. Transcribe a Piano music sheet in a ukulele tab sheet

Chapter 2

Create Ukulele tab sheets

To find the TAB for a chord (fig. 2.1): just click on the notes (fig. 2.2): and

Figure 2.1: Example chord

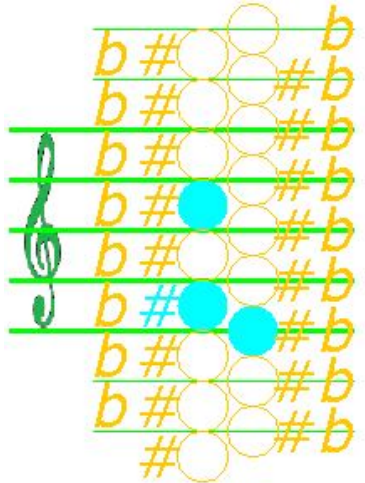

Figure 2.2: Select the notes

then hit the convert button. The corresponding tsb will then be shown (fig.

2.3):

Figure 2.3: Tab

A whole tab sheet can be created like that. Enter chord by chord, hit the convert button respectively. A barline (fig. 2.4) can be inserted by clicking

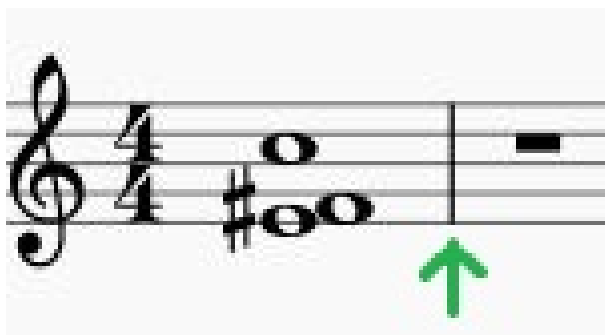

Figure 2.4: Barline

the Insert bar button. And when you are done, click the make tabfile button, and a tabfile (fig. 2.5) will be generated.

A		-----		--3--2----		-----		-----0--x-----		-----
E		--3---3---3---3---		--2--2--2---		--5--3--1-----		-----x-----		-----
C		-----		--4--3--3---		--6--4--2--2-----		--0-----x-----2-		-----
G		-----		-----		-----2--2--4---		--0-----x-----0---		-----

A		--	-----3--7--10---		--x-----14---		--12-----7--2--7--5---		-----
E		--	--0-----0--3-----		--x-----14---		--14--15-----10--5---		-----
C		--	--0--0-----		--x-----15---		-----16-----9-----		--12-
G		--	--0-----		--x-----		-----		--12-

A		-10-----7--	-----	-----3-----	-----
E		-----12--10-----	--10-----	-----0--3-----	--0--3-

Chapter 3

Transcribe a Piano music sheet in a ukulele tab sheet

Click the select musicxml file and convert button. Then select a musicxml or mxl file. Then a tabfile will be generated. A musicxml or mxl file can be created by Programs like Musescore or Audiveris from a pdf file or a Pic.
