Tabcreator
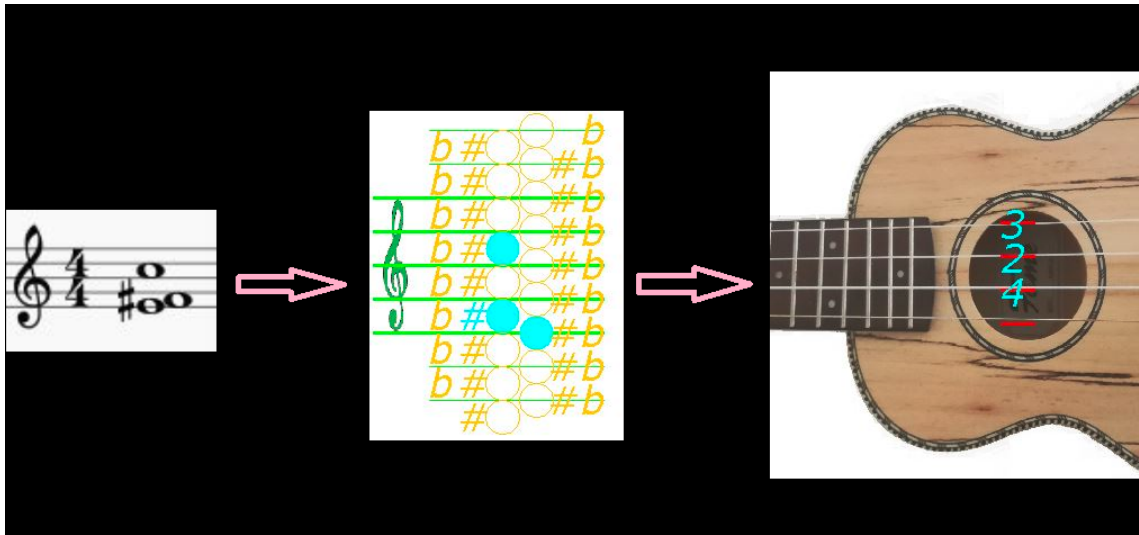

0.1 High G or Low G

First click on the 'High G' or 'Low G' button, depending on whether you are working with a High or Low G ukulele.

0.2 Transcribing Musical Notes to Ukuele Tabs

To transcribe a musical note in treble clef to the corresponding tab for ukulele enter the musical note by simply clicking on them, and then click 'Convert' (fig. 1).
Or click 'Convert All' to generate ALL possible tabs.

Figure 1:

0.3 Show different arrangements of same Tab

To get another possibility of how to play one tab enter the tab by double click and then click 'All Tab Combinations' (fig. 2).
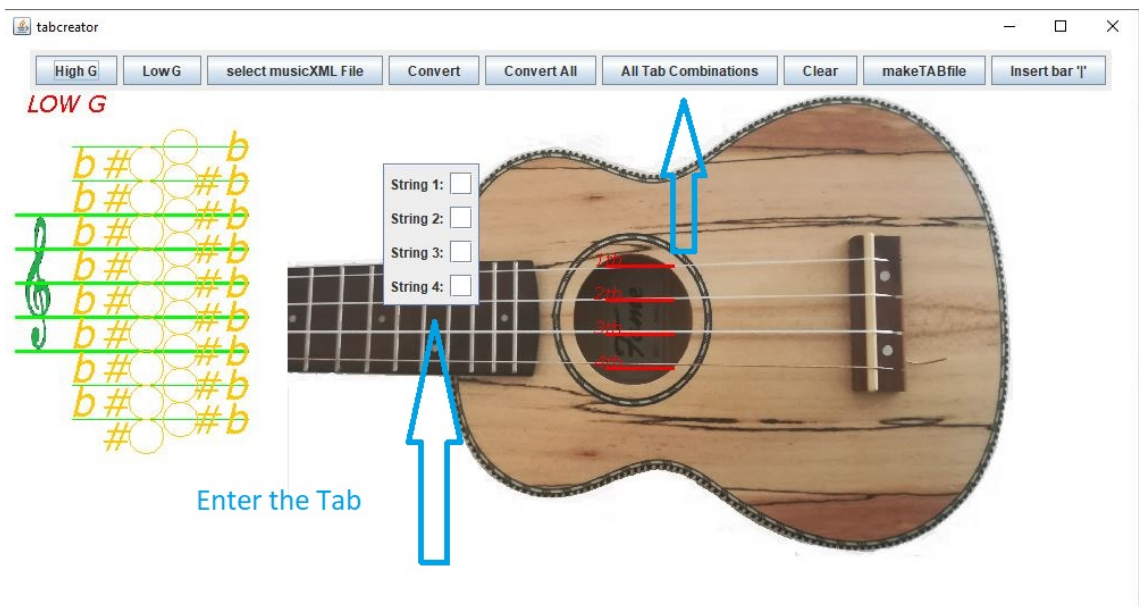

Figure 2:

0.4 Transcribing Piano Sheet Music to Ukulele Tabs

To transcribe piano sheet music to ukulele tabs, first create a music xml file with for instance Musescore or Audiveris. Then click 'select MusicXMLFile' to transcribe the sheet music to a ukulele tab sheet file.
So far only the treble clef staff will be transcribed.

0.5 Creating your own Ukulele Tab Sheet

To create your own ukulele tab sheet enter musical note by musical note. Click 'clear' after each note.
To add a barline click 'insert barline'.
When you are done click 'makeTabfile' and voila your tab sheet file (fig. 3).

```
A||----------3-------|-------3---7---|-
E||--5---7-------0---|---3---1---7---|-
C||--5---7-----------|---4--4-------|-
G||-----------------|--------------|-
```
